

Proposed Domestic Abuse (Prevention) (Scotland) Bill

Introduction

A proposal for a Bill to make provision for the prevention of domestic abuse and improve support for those affected, including by requiring: those convicted of offences related to domestic abuse to provide information for a register; use of this information to prevent further harm; use of rehabilitation measures in relation to offences related to domestic abuse; collation and reporting of data related to domestic abuse; and domestic abuse education in schools.

The consultation runs from 29 August 2022 to 20 November 2022

All those wishing to respond to the consultation are strongly encouraged to enter their responses electronically through this survey. This makes collation of responses much simpler and quicker. However, the option also exists of sending in a separate response (in hard copy or by other electronic means such as e-mail), and details of how to do so are included in the member's consultation document.

Questions marked with an asterisk (*) require an answer.

All responses must include a name and contact details. Names will only be published if you give us permission, and contact details are never published – but we may use them to contact you if there is a query about your response. If you do not include a name and/or contact details, we may have to disregard your response.

Please note that you must complete the survey in order for your response to be accepted. If you don't wish to complete the survey in a single session, you can choose "Save and Continue later" at any point. Whilst you have the option to skip particular questions, you must continue to the end of the survey and press "Submit" to have your response fully recorded.

Please ensure you have read the consultation document before responding to any of the questions that follow. In particular, you should read the information contained in the document about how your response will be handled. The consultation document is available here:

Aim and approach - Note: All answers to the questions in this section may be published (unless your response is "not for publication").

Q1. Which of the following best expresses your view of the proposed Bill? (Please note that this question is compulsory.)

Fully supportive

Please explain the reasons for your response.

It is a vital piece of legislation which is missing in Scotland to protect vulnerable people.

Q2. Do you think legislation is required, or are there other ways in which the proposed Bill's aims could be achieved more effectively? Please explain the reasons for your response.

Yes

Domestic Abuse Register

Q3. Which of the following best expresses your view on creating a register of those convicted of domestic abuse related offences?

Fully supportive

Please explain the reasons for your response. Please include any views you have on the list of policy details set out in bold on pages 23 and 24 of the consultation document.

A register would give preventative information and give tell tale signs to potential partners who may come in the way of harm.

Rehabilitation Measures

Q4. Which of the following best expresses your view of introducing mandatory rehabilitation measures for those convicted of domestic abuse?

Fully supportive

Please explain the reasons for your response. Please include any views you have on the list of policy details set out in bold on page 26 of the consultation document.

Like all crimes, this should be of no difference. Rehabilitation for offenders should be written into legislation.

Data

Q5. Which of the following best expresses your view of the proposals for data collection and reporting set out in the consultation document in bold on pages 30 and 31?

Fully supportive

Education

Q6. Which of the following best expresses your view of introducing mandatory education in schools on domestic abuse?

Fully supportive

Please explain the reasons for your response including any comments on the issues in bold on page 32 of the consultation document.

The subject should be taught in schools alongside other social and gender subjects from an early age to change the perception of those who could go onto committing domestic abuse.

Financial Implications

Q7. Any new law can have a financial impact which would affect individuals, businesses, the public sector, or others. What financial impact do you think this proposal could have if it became law?

some increase in costs

Please explain the reasons for your answer, including who you would expect to feel the financial impact of the proposal, and if there are any ways you think the proposal could be delivered more cost-effectively.

I think the additional costs would be minimal.

Equalities

Q8. Any new law can have an impact on different individuals in society, for example as a result of their age, disability, gender re-assignment, marriage and civil partnership status, pregnancy and maternity, race, religion or belief, sex or sexual orientation.

What impact could this proposal have on particular people if it became law? If you do not have a view skip to next question.

Please explain the reasons for your answer and if there are any ways you think the proposal could avoid negative impacts on particular people.

It would have a positive impact on everyone as the law would relate to everyone regardless of gender or background.

Sustainability

Q9. Any new law can impact on work to protect and enhance the environment, achieve a sustainable economy, and create a strong, healthy, and just society for future generations.

Do you think the proposal could impact in any of these areas? (If you do not have a view then skip to next question)

Please explain the reasons for your answer, including what you think the impact of the proposal could be, and if there are any ways you think the proposal could avoid negative impacts?

The law would definitely have a positive impact on society and benefit future generations who would not have to suffer from the blight of domestic violence.

General

Q10. Do you have any other additional comments or suggestions on the proposed Bill (which have not already been covered in any of your responses to earlier questions)?

The bill should be passed into legislation at the earliest opportunity.
