

Proposed Domestic Abuse (Prevention) (Scotland) Bill

Introduction

A proposal for a Bill to make provision for the prevention of domestic abuse and improve support for those affected, including by requiring: those convicted of offences related to domestic abuse to provide information for a register; use of this information to prevent further harm; use of rehabilitation measures in relation to offences related to domestic abuse; collation and reporting of data related to domestic abuse; and domestic abuse education in schools.

The consultation runs from 29 August 2022 to 20 November 2022

All those wishing to respond to the consultation are strongly encouraged to enter their responses electronically through this survey. This makes collation of responses much simpler and quicker. However, the option also exists of sending in a separate response (in hard copy or by other electronic means such as e-mail), and details of how to do so are included in the member's consultation document.

Questions marked with an asterisk (*) require an answer.

All responses must include a name and contact details. Names will only be published if you give us permission, and contact details are never published – but we may use them to contact you if there is a query about your response. If you do not include a name and/or contact details, we may have to disregard your response.

Please note that you must complete the survey in order for your response to be accepted. If you don't wish to complete the survey in a single session, you can choose "Save and Continue later" at any point. Whilst you have the option to skip particular questions, you must continue to the end of the survey and press "Submit" to have your response fully recorded.

Please ensure you have read the consultation document before responding to any of the questions that follow. In particular, you should read the information contained in the document about how your response will be handled. The consultation document is available here:

Q1. Which of the following best expresses your view of the proposed Bill? (Please note that this question is compulsory.)

Fully supportive

Please explain the reasons for your response.

MVAWG is on the rise and convictions are rock bottom. Misogyny is also ever present on our society and this is a dangerous time to be female in Scotland. The Scottish Government cannot even define what a

Q1. Which of the following best expresses your view of the proposed Bill? (Please note that this question is compulsory.)

woman is, so how can females be protected?? Allowing men dressed as women into female only spaces is abhorrent. I was brought up in a home where domestic violence was a daily occurrence and see dangerous males in our society all the time. Rape and sexual assaults are rising and convictions are rock bottom. We have a Government that is trying to erase all safe guarding from single sex spaces and allowing any man to force his way into single sex spaces. Truly disgusting.

Q2. Do you think legislation is required, or are there other ways in which the proposed Bill's aims could be achieved more effectively? Please explain the reasons for your response.

Legislation is required. Misogyny against females (not men that dress as women) should be a hate crime. The police and courts do not take MVAWG and rape seriously. Misogyny runs through every institution and is present at the highest levels.

Domestic Abuse Register

Q3. Which of the following best expresses your view on creating a register of those convicted of domestic abuse related offences?

Fully supportive

Please explain the reasons for your response. Please include any views you have on the list of policy details set out in bold on pages 23 and 24 of the consultation document.

Females should be able to view a register of potential future partners if they have been convicted of domestic abuse. This applies also to men that dress as women. They should not be able to change their name and hide their predatory behaviour behind a 'new identity'.

Rehabilitation Measures

Q4. Which of the following best expresses your view of introducing mandatory rehabilitation measures for those convicted of domestic abuse?

Fully supportive

Please explain the reasons for your response. Please include any views you have on the list of policy details set out in bold on page 26 of the consultation document.

Yes, but it won't work. Violent males are violent by nature. The whole sex education programme needs to be reviewed and instead of promoting unhealthy sexual acts and that pornography is normal (it isn't!) all males should be taught respect for females and that consent is vital. Consent and respect is at the heart of all these problems.

Data

Q5. Which of the following best expresses your view of the proposals for data collection and reporting set out in the consultation document in bold on pages 30 and 31?

Fully supportive

Please explain the reasons for your response including what information could usefully be collated and which groups in society could most benefit from improved information on their access to domestic abuse services and support.

A register of domestic abuse criminals. Fully enforced restraining orders. Convictions for abusers and tougher prison sentences. This should include men that dress as women who rape lesbians.

Education

Q6. Which of the following best expresses your view of introducing mandatory education in schools on domestic abuse?

Fully supportive

Please explain the reasons for your response including any comments on the issues in bold on page 32 of the consultation document.

100% agree. This is the age it all starts at. Males needs to be taught respect and consent. Males need to be taught what domestic abuse is and the consequences of their actions if they are violent against females.

Financial Implications

Q7. Any new law can have a financial impact which would affect individuals, businesses, the public sector, or others. What financial impact do you think this proposal could have if it became law?

no overall change in costs

Equalities

Q8. Any new law can have an impact on different individuals in society, for example as a result of their age, disability, gender re-assignment, marriage and civil partnership status, pregnancy and maternity, race, religion or belief, sex or sexual orientation.

What impact could this proposal have on particular people if it became law? If you do not have a view skip to next question.

Please explain the reasons for your answer and if there are any ways you think the proposal could avoid negative impacts on particular people.

I don't care about the impact on male abusers. I only care about the millions of female victims.

Sustainability

Q9. Any new law can impact on work to protect and enhance the environment, achieve a sustainable economy, and create a strong, healthy, and just society for future generations.

Do you think the proposal could impact in any of these areas? (If you do not have a view then skip to next question)

Please explain the reasons for your answer, including what you think the impact of the proposal could be, and if there are any ways you think the proposal could avoid negative impacts?

Implementing laws which protect females against the onslaught of male violence against them can only have a positive impact on our society and environment.

General

Q10. Do you have any other additional comments or suggestions on the proposed Bill (which have not already been covered in any of your responses to earlier questions)?

Firstly you will need to provide an accurate biological definition of female. The bill should be about protecting biological females (girls and women) against violence and abuse at the hands of biological males (boys and men) . Do not start introducing transsexuals into the equation. Start protecting females- the current situation in Scotland is absolutely ridiculous and misogyny at its finest. Address the real problems. Protect females against misogyny now.
