

Proposed Domestic Abuse (Prevention) (Scotland) Bill

Introduction

A proposal for a Bill to make provision for the prevention of domestic abuse and improve support for those affected, including by requiring: those convicted of offences related to domestic abuse to provide information for a register; use of this information to prevent further harm; use of rehabilitation measures in relation to offences related to domestic abuse; collation and reporting of data related to domestic abuse; and domestic abuse education in schools.

The consultation runs from 29 August 2022 to 20 November 2022

All those wishing to respond to the consultation are strongly encouraged to enter their responses electronically through this survey. This makes collation of responses much simpler and quicker. However, the option also exists of sending in a separate response (in hard copy or by other electronic means such as e-mail), and details of how to do so are included in the member's consultation document.

Questions marked with an asterisk (*) require an answer.

All responses must include a name and contact details. Names will only be published if you give us permission, and contact details are never published – but we may use them to contact you if there is a query about your response. If you do not include a name and/or contact details, we may have to disregard your response.

Please note that you must complete the survey in order for your response to be accepted. If you don't wish to complete the survey in a single session, you can choose "Save and Continue later" at any point. Whilst you have the option to skip particular questions, you must continue to the end of the survey and press "Submit" to have your response fully recorded.

Please ensure you have read the consultation document before responding to any of the questions that follow. In particular, you should read the information contained in the document about how your response will be handled. The consultation document is available here:

Aim and approach - Note: All answers to the questions in this section may be published (unless your response is "not for publication").

Q1. Which of the following best expresses your view of the proposed Bill? (Please note that this question is compulsory.)

Partially supportive

Please explain the reasons for your response.

Abusers can't be rehabilitated in my opinion! Giving them strength from knowledge is putting woman at more risk

Q2. Do you think legislation is required, or are there other ways in which the proposed Bill's aims could be achieved more effectively? Please explain the reasons for your response.

Definitely perpetrators need tracked!! Had this been in effect 7 years ago I wouldn't have been left debilitated with PTSD.

DV has taken part of my life. Has changed it in so many respects! It's left me unable to go out for dinner, communicate with others and taken many years from my life due to the aftermath.

Not even to mention the price to escape 3 times now

Domestic Abuse Register

Q3. Which of the following best expresses your view on creating a register of those convicted of domestic abuse related offences?

Fully supportive

Please explain the reasons for your response. Please include any views you have on the list of policy details set out in bold on pages 23 and 24 of the consultation document.

Can't express how vital this is for victims!! Perpetrators unable to escape and move onto destroy their next victim while leaving those who have escaped battered, broken, suicidal with no trust, no ability to function in a trauma state

Rehabilitation Measures

Q4. Which of the following best expresses your view of introducing mandatory rehabilitation measures for those convicted of domestic abuse?

Partially opposed

Please explain the reasons for your response. Please include any views you have on the list of policy details set out in bold on page 26 of the consultation document.

I believe from my experience there is no rehabilitation of these men. On my experience it's a mental health condition. They believe they own you. Giving them another tick box gives them ammunition against their victim(s)

Data

Q5. Which of the following best expresses your view of the proposals for data collection and reporting set out in the consultation document in bold on pages 30 and 31?

Fully supportive

Please explain the reasons for your response including what information could usefully be collated and which groups in society could most benefit from improved information on their access to domestic abuse services and support.

Had he been tracked-traced I'd have been given truthful guidance from authorities which as it stands hands are tied till you request under Claires Law

Education

Q6. Which of the following best expresses your view of introducing mandatory education in schools on domestic abuse?

Partially supportive

Please explain the reasons for your response including any comments on the issues in bold on page 32 of the consultation document.

Children are been given so much adult information so quickly sadly in today's society. That being said yes education is vital in so many respects.

I believe social services and teachers could do much more to highlight problems and potential risk factors

Financial Implications

Q7. Any new law can have a financial impact which would affect individuals, businesses, the public sector, or others. What financial impact do you think this proposal could have if it became law?

no overall change in costs

Please explain the reasons for your answer, including who you would expect to feel the financial impact of the proposal, and if there are any ways you think the proposal could be delivered more cost-effectively.

Had I been given information I'd have got out sooner! On my experience having been away 7 years I'm now back with the Task Force going through ex partners.

The costs to Police Scotland, Police Scotland Task Force, Rape Crisis, Womens Aid, Aura, Assist, the Court system including Sheriffs, Lords, Lady's of the judicial system.

The care and advocacy keeping victims alive till court and/or thereafter some form of rehabilitation.

Not to mention criminal injuries compensation tho no amount of claim would be suffice!

Equalities

Q8. Any new law can have an impact on different individuals in society, for example as a result of their age, disability, gender re-assignment, marriage and civil partnership status, pregnancy and maternity, race, religion or belief, sex or sexual orientation.

What impact could this proposal have on particular people if it became law? If you do not have a view skip to next question.

Please explain the reasons for your answer and if there are any ways you think the proposal could avoid negative impacts on particular people.

No Response

Sustainability

Q9. Any new law can impact on work to protect and enhance the environment, achieve a sustainable economy, and create a strong, healthy, and just society for future generations.

Do you think the proposal could impact in any of these areas? (If you do not have a view then skip to next question)

Please explain the reasons for your answer, including what you think the impact of the proposal could be, and if there are any ways you think the proposal could avoid negative impacts?

Being a Victim within DV of stalking definitely has had an impact on ability to function. After 7 years asked to come forward and relive my experience by Police Scotland Dv Task Force. Now in a multi victim case to High Court and he's out on bail ...a free man! I've had to close my business, move out my home and live in a caravan for my own safety!

They call this justice. Yes!!! I'm aggrieved!!

General

Q10. Do you have any other additional comments or suggestions on the proposed Bill (which have not already been covered in any of your responses to earlier questions)?

Victims need change!!! Any Bill being put forward needs implemented and radical change! Police Scotland baby sitting class 1 offender as our court system is failing victims.

Putting our lives at risk of retaliation prior to any court appearance
