

# Proposed Domestic Abuse (Prevention) (Scotland) Bill

## Introduction

A proposal for a Bill to make provision for the prevention of domestic abuse and improve support for those affected, including by requiring: those convicted of offences related to domestic abuse to provide information for a register; use of this information to prevent further harm; use of rehabilitation measures in relation to offences related to domestic abuse; collation and reporting of data related to domestic abuse; and domestic abuse education in schools.

The consultation runs from 29 August 2022 to 20 November 2022

All those wishing to respond to the consultation are strongly encouraged to enter their responses electronically through this survey. This makes collation of responses much simpler and quicker. However, the option also exists of sending in a separate response (in hard copy or by other electronic means such as e-mail), and details of how to do so are included in the member's consultation document.

Questions marked with an asterisk (\*) require an answer.

All responses must include a name and contact details. Names will only be published if you give us permission, and contact details are never published – but we may use them to contact you if there is a query about your response. If you do not include a name and/or contact details, we may have to disregard your response.

Please note that you must complete the survey in order for your response to be accepted. If you don't wish to complete the survey in a single session, you can choose "Save and Continue later" at any point. Whilst you have the option to skip particular questions, you must continue to the end of the survey and press "Submit" to have your response fully recorded.

Please ensure you have read the consultation document before responding to any of the questions that follow. In particular, you should read the information contained in the document about how your response will be handled. The consultation document is available here:

**Aim and approach - Note: All answers to the questions in this section may be published (unless your response is "not for publication").**

Q1. Which of the following best expresses your view of the proposed Bill? (Please note that this question is compulsory.)

Fully supportive

Q1. Which of the following best expresses your view of the proposed Bill? (Please note that this question is compulsory.)

**Please explain the reasons for your response.**  
Domestic violence should never be tolerated

Q2. Do you think legislation is required, or are there other ways in which the proposed Bill's aims could be achieved more effectively? Please explain the reasons for your response.

Yes to legislation . Only strong measures of a law will make a difference

## Domestic Abuse Register

Q3. Which of the following best expresses your view on creating a register of those convicted of domestic abuse related offences?

Fully supportive

**Please explain the reasons for your response. Please include any views you have on the list of policy details set out in bold on pages 23 and 24 of the consultation document.**  
To protect future partners at least let them know what sort of relationship they may be getting into

## Rehabilitation Measures

Q4. Which of the following best expresses your view of introducing mandatory rehabilitation measures for those convicted of domestic abuse?

Fully supportive

**Please explain the reasons for your response. Please include any views you have on the list of policy details set out in bold on page 26 of the consultation document.**  
Better to give offenders a chance to change but if after rehabilitation the same behaviour continues there should be stronger deterrents

## Data

Q5. Which of the following best expresses your view of the proposals for data collection and reporting set out in the consultation document in bold on pages 30 and 31?

Fully supportive

**Please explain the reasons for your response including what information could usefully be collated and which groups in society could most benefit from improved information on their access to**

Q5. Which of the following best expresses your view of the proposals for data collection and reporting set out in the consultation document in bold on pages 30 and 31?

**domestic abuse services and support.**

Immigrants from different cultures should be educated to what is acceptable and not acceptable in our society. However there is no excuse for generations who have been raised in the UK . Sadly the values of parents are passed down and become replicated by each generation. Education on acceptable behaviour should start in school

## Education

Q6. Which of the following best expresses your view of introducing mandatory education in schools on domestic abuse?

Fully supportive

**Please explain the reasons for your response including any comments on the issues in bold on page 32 of the consultation document.**

Just mentioned this in last response . Our schools must educate what is right and wrong . Nothing to do with religion simple lines that must not be crossed or there will be consequences

## Financial Implications

Q7. Any new law can have a financial impact which would affect individuals, businesses, the public sector, or others. What financial impact do you think this proposal could have if it became law?

some increase in costs

**Please explain the reasons for your answer, including who you would expect to feel the financial impact of the proposal, and if there are any ways you think the proposal could be delivered more cost-effectively.**

The initial cost would hopefully be offset by a reduction in police time being called out to cases of domestic abuse . NHS time in treating customs of domestic abuse . Prevention better than dealing with the aftermath . I can't see why introducing the teaching into the curriculum should be more expensive.

## Equalities

Q8. Any new law can have an impact on different individuals in society, for example as a result of their age, disability, gender re-assignment, marriage and civil partnership status, pregnancy and maternity, race, religion or belief, sex or sexual orientation.

What impact could this proposal have on particular people if it became law? If you do not have a view skip to next question.

Please explain the reasons for your answer and if there are any ways you think the proposal could avoid negative impacts on particular people.

It should be all inclusive it doesn't matter where you fit into society domestic abuse it simply wrong

## Sustainability

Q9. Any new law can impact on work to protect and enhance the environment, achieve a sustainable economy, and create a strong, healthy, and just society for future generations.

Do you think the proposal could impact in any of these areas? (If you do not have a view then skip to next question)

Please explain the reasons for your answer, including what you think the impact of the proposal could be, and if there are any ways you think the proposal could avoid negative impacts?

*No Response*

## General

Q10. Do you have any other additional comments or suggestions on the proposed Bill (which have not already been covered in any of your responses to earlier questions)?

Missed the last answer by mistake. When the bill goes through it will have impact on the home life in many families and should give them a better future . Children need to be brought up in a secure non threatening environment it's the only way to improve their future. If they constantly see parents being abuse they are likely to also become future abusers as they think it is the norm. Starting the education at school and giving the children a voice and secure place for them to talk about their fears would be a good start to helping their mental health . However very often the abused person loves the abuser and the children interfering could put them in danger . This bill is definitely a move in the right direction. The ripple effects will affect schools , social services and the public . Everyone must stand up to bulllys and give the abused a voice
