

# Proposed Domestic Abuse (Prevention) (Scotland) Bill

## Introduction

A proposal for a Bill to make provision for the prevention of domestic abuse and improve support for those affected, including by requiring: those convicted of offences related to domestic abuse to provide information for a register; use of this information to prevent further harm; use of rehabilitation measures in relation to offences related to domestic abuse; collation and reporting of data related to domestic abuse; and domestic abuse education in schools.

The consultation runs from 29 August 2022 to 20 November 2022

All those wishing to respond to the consultation are strongly encouraged to enter their responses electronically through this survey. This makes collation of responses much simpler and quicker. However, the option also exists of sending in a separate response (in hard copy or by other electronic means such as e-mail), and details of how to do so are included in the member's consultation document.

Questions marked with an asterisk (\*) require an answer.

All responses must include a name and contact details. Names will only be published if you give us permission, and contact details are never published – but we may use them to contact you if there is a query about your response. If you do not include a name and/or contact details, we may have to disregard your response.

Please note that you must complete the survey in order for your response to be accepted. If you don't wish to complete the survey in a single session, you can choose "Save and Continue later" at any point. Whilst you have the option to skip particular questions, you must continue to the end of the survey and press "Submit" to have your response fully recorded.

Please ensure you have read the consultation document before responding to any of the questions that follow. In particular, you should read the information contained in the document about how your response will be handled. The consultation document is available here:

**Aim and approach - Note: All answers to the questions in this section may be published (unless your response is "not for publication").**

Q1. Which of the following best expresses your view of the proposed Bill? (Please note that this question is compulsory.)

Partially supportive

Q2. Do you think legislation is required, or are there other ways in which the proposed Bill's aims could be achieved more effectively? Please explain the reasons for your response.

I don't have enough about current legislation on this matter. A Domestic Abuse Register may be a good tool as long as it is well managed. I am however not convinced that a Register would be enough to act as a deterrent to stop perpetrators. The introduction of mandatory rehabilitation measures for perpetrators of domestic abuse would be welcome. as well as mandatory domestic abuse awareness in schools.

## Domestic Abuse Register

Q3. Which of the following best expresses your view on creating a register of those convicted of domestic abuse related offences?

Partially supportive

**Please explain the reasons for your response. Please include any views you have on the list of policy details set out in bold on pages 23 and 24 of the consultation document.**

Personally, I am a bit wary of any register. I think it's fine though as long as only those CONVICTED are put on the register.

## Rehabilitation Measures

Q4. Which of the following best expresses your view of introducing mandatory rehabilitation measures for those convicted of domestic abuse?

Fully supportive

**Please explain the reasons for your response. Please include any views you have on the list of policy details set out in bold on page 26 of the consultation document.**

I believe that rehabilitation is always important, whether when addressing domestic abuse or matters such as addiction etc. But rehab measures need to be right, set up properly, with advice of experts 'on the ground' and well managed.

## Data

Q5. Which of the following best expresses your view of the proposals for data collection and reporting set out in the consultation document in bold on pages 30 and 31?

Neutral (neither support nor oppose)

## Education

Q6. Which of the following best expresses your view of introducing mandatory education in schools on domestic abuse?

Fully supportive

## Financial Implications

Q7. Any new law can have a financial impact which would affect individuals, businesses, the public sector, or others. What financial impact do you think this proposal could have if it became law?

some increase in costs

**Please explain the reasons for your answer, including who you would expect to feel the financial impact of the proposal, and if there are any ways you think the proposal could be delivered more cost-effectively.**

It might have an impact on services and on their finances but this has to be balanced against the cost of not acting to try and address the issue of domestic violence.

## Equalities

Q8. Any new law can have an impact on different individuals in society, for example as a result of their age, disability, gender re-assignment, marriage and civil partnership status, pregnancy and maternity, race, religion or belief, sex or sexual orientation.

What impact could this proposal have on particular people if it became law? If you do not have a view skip to next question.

Please explain the reasons for your answer and if there are any ways you think the proposal could avoid negative impacts on particular people.

*No Response*

## Sustainability

Q9. Any new law can impact on work to protect and enhance the environment, achieve a sustainable economy, and create a strong, healthy, and just society for future generations.

Do you think the proposal could impact in any of these areas? (If you do not have a view then skip to next question)

Please explain the reasons for your answer, including what you think the impact of the proposal could be, and if there are any ways you think the proposal could avoid negative impacts?

*No Response*

## General

Q10. Do you have any other additional comments or suggestions on the proposed Bill (which have not already been covered in any of your responses to earlier questions)?

We need to keep in mind that men - not only women - can also be the target of domestic abuse and we need to ensure that they too receive the help they need.
